

Emergency

24/7/365 Emergency Care

The Emergency Department of Portland Veterinary Emergency and Specialty Care provides emergency and critical care 24 hours per day, 7 days per week, 365 days per year at our 739 Warren Ave, Portland location.

Veterinarians, please call 207-878-3121, option 1 to discuss the patient case with an emergency veterinarian prior to transferring the patient into PVESC's care. This call, in advance of a patient's arrival, is very much appreciated.

PVESC's aim is to see every patient in need of emergency care as soon as possible. Patients will be triaged upon arrival. If the patient is determined to have a life-threatening emergency, the pet will be seen immediately. All other cases are seen in order of degree of urgency, instead of order of arrival.

Specialists are usually available for in-hospital consultations during normal specialty business hours as listed below. In-hospital consultations with specialty departments (including emergency ultrasounds) are not always guaranteed on the same day, especially if the patient arrives on a weekend or towards the end of our normal specialty business hours. Weekend emergency ultrasound and endoscopy is available on an as need basis as deemed necessary by the emergency clinician.

Normal Specialty Business Hours for our Warren Avenue location:

Surgery, Internal Medicine, and Oncology; Monday Through Friday 8:00am to 5:00pm.

Neurology; Tuesday through Friday, 8:00am to 5:00pm.

Cardiology; Monday and Thursday, 8:00am to 4:00pm.

To reach our emergency department for emergency referrals, non-urgent cases, and questions, please call 207-878-3121, option 1.

Diagnostic and medical records can be emailed to emergency@pvesc.com or faxed to 207-878-0829.

Location: 739 Warren Avenue, Portland ME 04103
