Dinner Lecture Topic: Using Technology to Meet Client Expectations

Presenter: Eric D. Garcia, IT & Digital Strategist

Lecture submitted for 1 CEU credit for Maine Veterinarians

In an age where technology shapes every aspect of our lives, veterinary practices are no exception. This dynamic session is designed for veterinary professionals eager to revolutionize their practice through technology. It delves into the practical ways in which technology can not only enhance operational efficiency but also foster a positive practice culture, deliver exceptional value to pet owners, and significantly boost client retention. This session will also shed light on the cutting-edge application of artificial intelligence (AI).

Veterinarian Lectures

Lecture A: 7:00pm-8:00pm

Title: What's Your Diagnosis?

Presenters: Sarah Noble, DVM DACVIM and Marianna Schafer, DVM DACVR

Lecture submitted for 1 CEU credit for Maine veterinarians

Come join an Internal Medicine specialist and a Radiologist for an interactive case-based discussion of interesting Internal Medicine and Imaging cases, including endocrinology, gastrointestinal, renal, and pulmonary conditions.

Lecture B: 8:00pm-9:00pm

Title: Case Presentations in Small Animal Neurology

Presenter. Danielle Eifler, DVM, DACVIM (Neurology), Certified Veterinary Neurosurgeon

Lecture submitted for 1 CEU credit for Maine veterinarians

Lecture will focus on case presentations of some of the more common neurologic disorders in dogs and cats, including neurologic examination findings and determining neuroanatomic localization based on the findings. Differential diagnoses will be formulated and diagnostic testing options discussed to further investigate potential causes for the patient's signs. From there, diagnosis, treatment plan and prognosis will be discussed.

Veterinary Technician/Assistant Lectures (Client Service welcome!)

Lecture C: 7:00pm to 8:00pm

Title: Feline Hyperthyroidism and Radioactive Iodine Therapy

Presenter: Kelly Beaudoin, LVT

Come and join for a deep dive into the cause of feline hyperthyroidism, learn all the diagnostic and treatment options, and see why Radioactive Iodine (I-131) is the gold standard treatment. See how I-131 works, and what the treatment process looks like. This lecture will benefit veterinary technicians, assistants, and client service.

Lecture D: 8:00pm to 9:00pm

Title: What's Your Diagnosis?

Presenters: Sarah Noble, DVM DACVIM and Marianna Schafer, DVM DACVR

Come join an Internal Medicine specialist and a Radiologist to see interesting Internal Medicine / Imaging cases with an emphasis on tricks and techniques for Imaging (how to make your veterinarian and/or radiologist happy!).
